

IRB Application Form

Background and Level Selection

1. Name: *

Erin Buchanan

2. Email: *

ebuchanan@harrisburgu.edu

3. Program *

ANLY

4. Project Title (should be descriptive of the type of research to be conducted): *

Categorizing Affordances in a Cross Linguistic Sample

5. Enter your CITI training Record ID (located in upper right corner of certificate). * 

66374985

6. Upload your CITI training completion certificate. (Non-anonymous question ) * 

 citiCompletionCertificate_996967_66374985_Erin Buchanan 2.pdf

7. Position at HU: * 

☐ Undergraduate Student

☐ Masters Student

☐ PhD Student

☒ Faculty/Staff

Faculty Information

8. Names of Co-PIs or collaborators

Nicholas Maxwell

9. Emails for Co-PIs/collaborators

nicholas.maxwell@usm.edu

10. Are you seeking funding for this project/research? If yes, please email a copy of the proposal summary/abstract to IRB@harrisburgu.edu *

☐ Yes

☒ No

Select Application Level

11. What is the expected sample size?

10,000

12. Which of the following types of participants will be used? * 

- ☒ Adults (18 years or older)
- ☒ HU Students (18 years or older)
- ☒ Faculty or external collaborators
- ☐ Children (17 years or younger)
- ☐ Patients in Institutions
- ☐ Prisoners
- ☐ Pregnant women
- ☐ Other

13. Which level of application does your study fall into? * 

Note: Any direct interaction with participants including sending online surveys or conducting virtual interviews falls into **Expedited** research. Any use of secondary private protected data covered by HIPAA, FERPA, or other set of regulation falls into **Expedited** research.

- ☐ Exempt: Research using public data on individuals, using secondary or archival research data on individuals (with some exceptions), research methods and techniques, and some uses of educational data
- ☒ Expedited: Survey research of individuals with no more than minimal risk, Interviews of individuals with no more than minimal risk, Experimental research with no more than minimal risk, or Use of public or secondary where there is more than minimal risk (including physical, social, psychological, and privacy risks for either individuals or groups)
- ☐ Full Board: Any research involving more than minimal risk, the collection of sensitive data on individuals, or protected classes (i.e. children, pregnant people, prisoners, and individuals with mental disabilities or educational disadvantages)

Expedited Applications (review time: up to 2 weeks for initial decision)

Survey research of individuals with no more than minimal risk, Interviews of individuals with no more than minimal risk, Experimental research with no more than minimal risk, or Use of public or secondary where there is more than minimal risk

14. What category of research is involved? See OHRP for further information and criteria, <<https://www.hhs.gov/ohrp/regulations-and-policy/guidance/categories-of-research-expedited-review-procedure-1998/index.html>>. If conducting a survey, interview, or focus group, Category 7 is likely the most appropriate category.

- ☐ Category 1: Clinical studies of drugs and medical devices only when condition (a) or (b) is met,
- ☐ Category 2: Collection of blood samples by finger stick, heel stick, ear stick, or venipuncture from healthy, non-pregnant adults.

- ☐ Category 3: Prospective collection of biological specimens for research purposes by noninvasive means.
- ☐ Category 4: Collection of data through noninvasive procedures (not involving general anesthesia or sedation) routinely employed in clinical practice, excluding procedures involving x-rays or microwaves.
- ☐ Category 5: Research involving materials (data, documents, records, or specimens) that have been collected, or will be collected solely for nonresearch purposes (such as medical treatment or diagnosis).
- ☐ Category 6: Collection of data from voice, video, digital, or image recordings made for research purposes.
- ☒ Category 7: Research on individual or group characteristics or behavior (including, but not limited to, research on perception, cognition, motivation, identity, language, communication, cultural beliefs or practices, and social behavior) or research employing survey, interview, oral history, focus group, program evaluation, human factors evaluation, or quality assurance methodologies.
- ☐ Category 8: Continuing review of research previously approved by the convened IRB.
- ☐ Category 9: Continuing review of research, not conducted under an investigational new drug application or investigational device exemption where categories two (2) through eight (8) do not apply but the IRB has determined and documented at a convened meeting that the research involves no greater than minimal risk and no additional risks have been identified.

15. **Consent Form.** All surveys & interviews must include a consent form with the purpose of the study, expectations of participants, potential risks and benefits, any costs or compensation, and researcher contact information. A template is available on the IRB Sharepoint site (<https://myharrisburgu.sharepoint.com/sites/HUIRBHub>) * 

Must include full, specific consent form containing all needed information

Uploaded below.

16. List all questions that participants will be asked. *

If conducting a survey on QuestionPro, you can provide a link to the survey.

You can take the study at <https://formr.thedoomlab.online/manyuses-english>

17. If applicable, describe any stimuli or materials participants will be shown.

Materials can also be emailed to the IRB (IRB@harrisburgu.edu)

Participants will be shown a list of words and asked to describe what they can do with them - like a knife allows you to cut things. Participants only see 30 words when they complete the study, which is randomly generated and assigned. Word lists can be found at: <https://github.com/many-languages/ManyUses/tree/main/01-Stimuli>

18. How will participants be identified and recruited? *

Participants will be recruited with the Psychological Science Accelerator and ManyLanguages networks. Individual research labs join the project and recruit from their local participant pools or social media for credit or small prizes.

19. How will be data be secured? * 

The data is stored on a secure server run by the PSA and only the research team has access to the formr account that the data is stored on. Only Dr. Buchanan has access to the server configuration/database.

20. Will any personally identifiable data be collected? If so, why is it necessary? * 

No.

21. Optional: Upload any supporting documents or materials (Non-anonymous question ⓘ) *
